

M/J Foundational Skills in Mathematics Grade 7 Homework 6

Calculate:

$$\left(\frac{2}{3} + |-3|\right)^2 / 10$$

$$\left(|\frac{2}{5} - 5| \times 10\right) - 2$$

$$|(-\frac{1}{2})^3| + 3$$

$$10 + |5 + \frac{2}{5} \times 5|$$
