M/J Foundational Skills in Mathematics Grade 7

Warm-Up 10

1. Emily bought a large pizza that was cut into 8 equal slices. She ate 3/8 of the pizza for dinner and saved the rest for later. How many slices did she eat?

2. James is planting flowers in his garden. He planted 2/5 of the total flowers in the morning and the rest in the afternoon. If he planted a total of 10 flowers, how many did he plant in the morning? 3. Sarah made a batch of cookies and decided to share some with her neighbors. She gave away 1/4 of the cookies and kept the rest. If she originally made 12 cookies, how many did she give away?

4. David has a water bottle that canhold 1 liter of water. By noon, he haddrunk 3/4 of the water in the bottle.How much water did he drink by noon?
